

Swivel Secure Education License

Data and network security is a growing concern for the education sector.

Compliance with strict data protection regulations, demands from students to access the network from a range of different devices and applications and password reuse means that reliance on username and password alone is no longer an option.

The Swivel Secure education licensing option, enables budget conscious educational facilities to add an additional level of security to their network infrastructure without the need for extensive additional investment.

No matter the size of your educational institution, know that your network and sensitive data is protected with Swivel Secure.

Free Student Licences

When a educational institution purchases licences for staff and signs up to the annual maintenance agreements, under the Swivel Secure education licence, Swivel Secure will provide student licenses for free, ensuring network security to both staff and student data, no matter where or how the network is accessed.

Key benefits:

- Free Student Licences
- User Friendly Solution
- Risk-based Authentication as Standard
- Instant Provision and De-Provision of Users
- Comprehensive Support and Service

Multi-Factor Tokenless Authentication Solution

The Swivel Secure authentication platform - AuthControl Sentry®, offers the broadest range of delivery options available on the market.

Multi-factor authentication via SMS, Mobile App and Telephony for high risk / sensitive data environments and strong authentication through user friendly image based integration options for lower risk environments.

AuthControl Sentry® can be used to secure Cloud, Desktop, VPN and Web applications and provides risk-based authentication as standard, ensuring each user is requested the appropriate level of authentication, whether they are accessing their application on campus or studying at home.

Requirement For Free Student Licenses:

- All staff require a license
- High Availability (HA) appliances are mandatory
- Student licenses correspond with the length of the maintenance support
- Basic annual service required - annual health check and yearly audit of staff licenses

Education licences can be purchased via a network of accredited channel partners. A list of Swivel partners can be found at <http://www.swivelsecure.com/partners>
